MEMORANDUM FOR

Commanders, TRADOC Installations  
Commanders, U.S. Army Training Centers  
Commanders, USAR Training Divisions  
Commandants, TRADOC Service Schools  
Commandants, TASS Battalions

SUBJECT: Revised Depleted Uranium (DU) Tier I Training Materials

1. The DU Tier I training materials consist of DU graphic training aid, 3-4-1A (Enclosure 1), DU general awareness video, #TVT 3-117 (Enclosure 2), DU Tier I Training Support Package (TSP), TA-031-DUAT-001 (Enclosure 3), and the DU task of the Common Task Test (Enclosure 4). The training materials required revision because earlier versions overstated the risk of DU.

2. This package is designed to provide all military personnel with knowledge on the uses, physical properties, health effects, and proper handling of DU and low-level radioactive materials. The items do not reflect additional tasks for inclusion in any doctrinal publications, but represent knowledge and skills that can be used to modify existing tasks.

3. The enclosed guidance applies to HQ TRADOC and all subordinate organizations responsible for developing training. TRADOC Schools should ensure that, as a minimum, the following subordinate organizations receive copies of this memorandum and its enclosures:

- a. Directorate of Training and Doctrine Development to include the Staff and Faculty Development Division.
- b. Director of Evaluation and Standardization.
- c. Training Departments.
- d. Branch Safety Officers.
- e. Installation Environmental Officers.

SUBJECT: Revised Depleted Uranium (DU) Tier I Training Materials

4. Additional copies of the TSP and GTA can be ordered through your local training aids service center. The DU video can be requested from the Defense Visual Information Homepage (<http://dodimagery.afis.osd.mil>) by clicking on Search *Davis/DITIS* in the left column and entering *depleted uranium* as the search criteria.

5. Point of contact is MAJ Dodson, DSN 680-5608 or (757) 728-5608.

FOR THE COMMANDER:

4 Encls

JOHN B. SYLVESTER *SES, ARST*  
Major General, GS  
Deputy Chief of Staff  
for Training
